Ms. Ethel, Patrice,

Ms. Ethel, do yall currently use a dumpster at your current location for trash? Do yall want a dumpster if not?

If so, Ethel, Patrice, The attached is a sketch for a proposed location of a dumpster. That location used to be the transformer location. There is no other place to put a dumpster.

Respectfully,

You are saying the dumpster must go next to the chiller yard, is that correct? We need a dumpster, so yes, if that is the only option.
