RE: St. Bernard Parish Public Library
Gibbs Project #1725

Subject: PCO #036 Special Systems Changes

Dear Mr. Rowe:

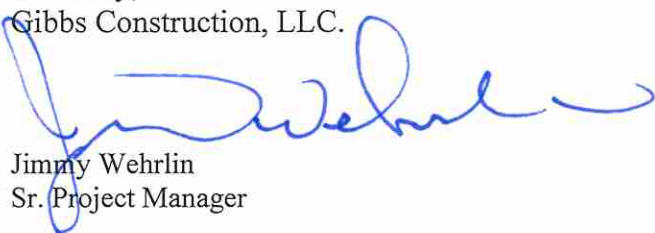

Please find attached the cost breakdown and supporting documentation associated with Gibbs Construction's **PCO #036** in the credit amount of **\$48,130.59** dollars for your review and approval.

This change order is for adding a new projector and 2 PTZ cameras in the meeting room, adding 4 WAPS and connecting them to the main controller, add a people counting camera to the project, add a new motion detector and replace the keypad with a 6460 keypad, and upgrade the paging system to have the ability to page certain areas.

An extension of time of (7) additional day of contract time is requested due to time for redesigning the storm drainage system.

If you have any further questions or concerns, please contact us at your earliest convenience.

Sincerely,
Gibbs Construction, LLC.

Jimmy Wehrin
Sr. Project Manager

Livaudais Electrical

Attn: Mr. Philip Livaudais

Ref: St Bernard Parish Library- Projector – Cameras

EEC was asked to price up adding a new projector with a bracket and add (2) PTZ cameras in the back of the room. EEC will need to provide and install the new projector in the meeting room and install the PTZ cameras in the back of the meeting room.

The following equipment will be needed:

- | | | | |
|----------------|-------------|-----------|-----------------|
| (1) LG ProBeam | BUSORG | Projector | \$4,821.00 |
| (2) PTZOptics | Move SE 30X | Cameras | \$1,838.00 each |

(1) Misc. Shipping, screws, mount brackets, update drawings \$1,551.00

Labor to install the new projector, bracket, backboxes, pipe, cameras, and aim the devices, show the customer how to use the equipment, and plus warranty for one year.

Will be 56 hrs at \$75.00 per hour

Total will be an addition of \$14,248.00

Telecommunications

EEC was asked to price up adding (4) new Ubiquiti Outdoor Weatherproof WAPS with a pole strap. EEC will need to provide and pole mounted WAPS's, wire, straps, connect the new WAP's to the Ubiquiti main controller.

The following equipment will be needed:

- | | | |
|----------------------------------------------------------------|--------------------------------|------------|
| (4) Ubiquiti U7 | Weatherproof WAP's with straps | \$412.00 |
| (1) Misc. Shipping, screws, wire, weatherproof boxes, drawings | | \$1,092.00 |

Labor to install the outdoor WAP's, lift, and connect them to the main Ubiquiti system will be 44hrs at \$75.00 per hour

Total will be an addition of \$6,040.00

People Counting Camera

EEC was asked to price up to add a People Counting Camera at the, above mentioned site. EEC will provide and install the Camera as required and program. EEC will test the system upon completion. The following equipment will be needed:

The following equipment will be needed:

- | | |
|------------------------------------------------|------------|
| (1) Vivotek SC9133-RTL People Counting Camera | \$1,698.00 |
| (1) Wire, shipping, POE, Storage, etc. will be | \$470.00 |
| (1) Pipe, 30 foot lift and backbox | \$847.00 |

Labor will be 22 hours at \$75.00

Total will be an additional \$4,665.00

INTRUSION SYSTEM

EEC was asked to price up adding a new Motion Detector and replacing the 6160 Keypad to an update 6460 Keypad to the above project. EEC will need to add the motion detector in the lobby area if the lobby area is used after hours.

The following equipment will be needed:

- | | | |
|--------------------------------------------------------------|-----------------------------|-----------|
| (1) Honeywell IS-3050A-SN | Addressable Motion Detector | \$134.00 |
| (1) Honeywell 6460 | Alarm Keypad | \$284.00 |
| (1) Honeywell 6160 | Alarm Keypad | -\$115.00 |
| (1) Wire for motion and fix drawings to reflect new location | | \$105.00 |
| Labor will be 6 hrs at \$65.00 per hour | | |

Total will be an addition of \$798.00

PAGING SYSTEM

EEC was asked to price up adding a zone paging system to the above job. The initial specs called for a paging system and the Parish is asking that they have the ability to page individual areas plus all call. EEC will need to replace the amp/mixer and the microphone with a new TOA zone paging system. EEC will need to run the wire and separate the speakers to allow for zones.

The following equipment will be needed:

- | | | | |
|-----------------------------------------------------|------------|-----------------------------|---------------|
| (1) TOA | Q-RM9012PS | Zone Page Microphone | \$595.00 |
| (1) TOA | A-9120DHM2 | Amplifier w/Modules | \$1,745.00 |
| (1) TOA | Q-SS9012PS | Multi Zone Speaker Selector | \$647.00 |
| (2) TOA | MB-15B | Rack Kit | \$68.00 each |
| (3) Rauland | 3601 | Outdoor Paging Horns | \$142.00 each |
| (1) Pipe, backboxes, and flex will be | | | \$595.00 |
| Credit for the JBL Amp/Mixer and Microphone will be | | | -\$644.00 |
| Wire, shipping, straps, etc. will be | | | \$546.00 |
| Labor will be 72 hrs at \$70.00 | | | |

Total will be an additional \$9,086.00

Sincerely,

Randy Geier
