Upcoming Meetings

To be held during the Construction Document phase:

1. Shelving Meeting
 - Discuss and ensure that adequate shelving is provided for current library collection and future expansion.
2. Interior Color / Material Discussion and Selection
 - Existing furniture and equipment to be brought from current branches will be taken into consideration when establishing a color scheme for the new facility.
 - Design team will present three interior color schemes for discussion and selection.
3. Data / Electrical items.
 - Identify specific electrical and data requirements and outlet locations.
 - Government programs for funding?
